Social Distancing and the Community

Being back on the field is great! For the kids, the parents, and the club, but we have to remember the global concerns at hand. Over the last several days, I've received a few calls regarding concern about how the SportsPlex programs have been handling the social distancing. The calls have been with current members, community members, and government member. I have conceded to every argument posed and have promised to uphold the standards that are needed for us to

stay in operation. I do not want anyone taking away our field time or shutting the building down, so by the guidelines established by State and Local Officials, the following will go into immediate effect. Anyone violating these will result in their child being unable to participate in training sessions:

1. All spectators are asked to maintain 6 foot social distancing or wear a mask.
2. All players, when not actively participating in a session, must keep the same 6-feet away social distancing or wear a mask.
3. When inside the SportsPlex, masks are required.

Until the governor decrees differently, we will follow all phase 4 criteria for all programs. Thank you for your understanding. It's all about keeping the kids active and safe.

Lifestyle News

Water!!!! Every practice, I talk to the kids about how important it is for them to stretch and have water. By the time they are 12, I explain that it is their responsibility to have water at EVERY practice. It is part of their uniform and equipment list. The younger kids, it's the parents. There have been way too many kids showing up without water on hot days. Please help your child learn this life lesson. No matter the sport, water is essential!

SportsPlex News

Emails!!!! I am doing my best to cover all the avenues of communications for the club but there are still several people that don't reply to emails and some that even say it with pride. This only hurts the kids and the club. Sometimes, the club organizes teams and a short window of response is needed. Please try to reply to club news and inquiries so I don't have to leave anyone off rosters.

Cancellations

As the coaching staff and I figure out the who's, where's, and what's of everything. In the event we ever need to cancel the 5:00pm soccer training due to weather and the SportsPlex being occupied by another program, I will be rescheduling that cancellation to Fridays at 5:00pm. In the meantime, I will be reaching out to many of you about what schedule works best for the majority.

Thank you as always for all your time and commitment to the kids and community! - **Coach Perry**
